Govt hears builders' demand for realty growth

The government on Monday assured real estate developers that it will look into their legitimate demand for growth as the sector plays an important role in employment generation. Addressing a national convention of NAREDCO here, Housing and Urban Affairs Minister Narendra Singh Tomar said the real estate sector contributes a lot to the country's GDP and provides huge employment opportunities. The industry's contribution to GDP will further rise, he asserted. He called on private players to play an important role in boosting housing supply and meet the target of Housing for All by 2022. **PTI**
